

100

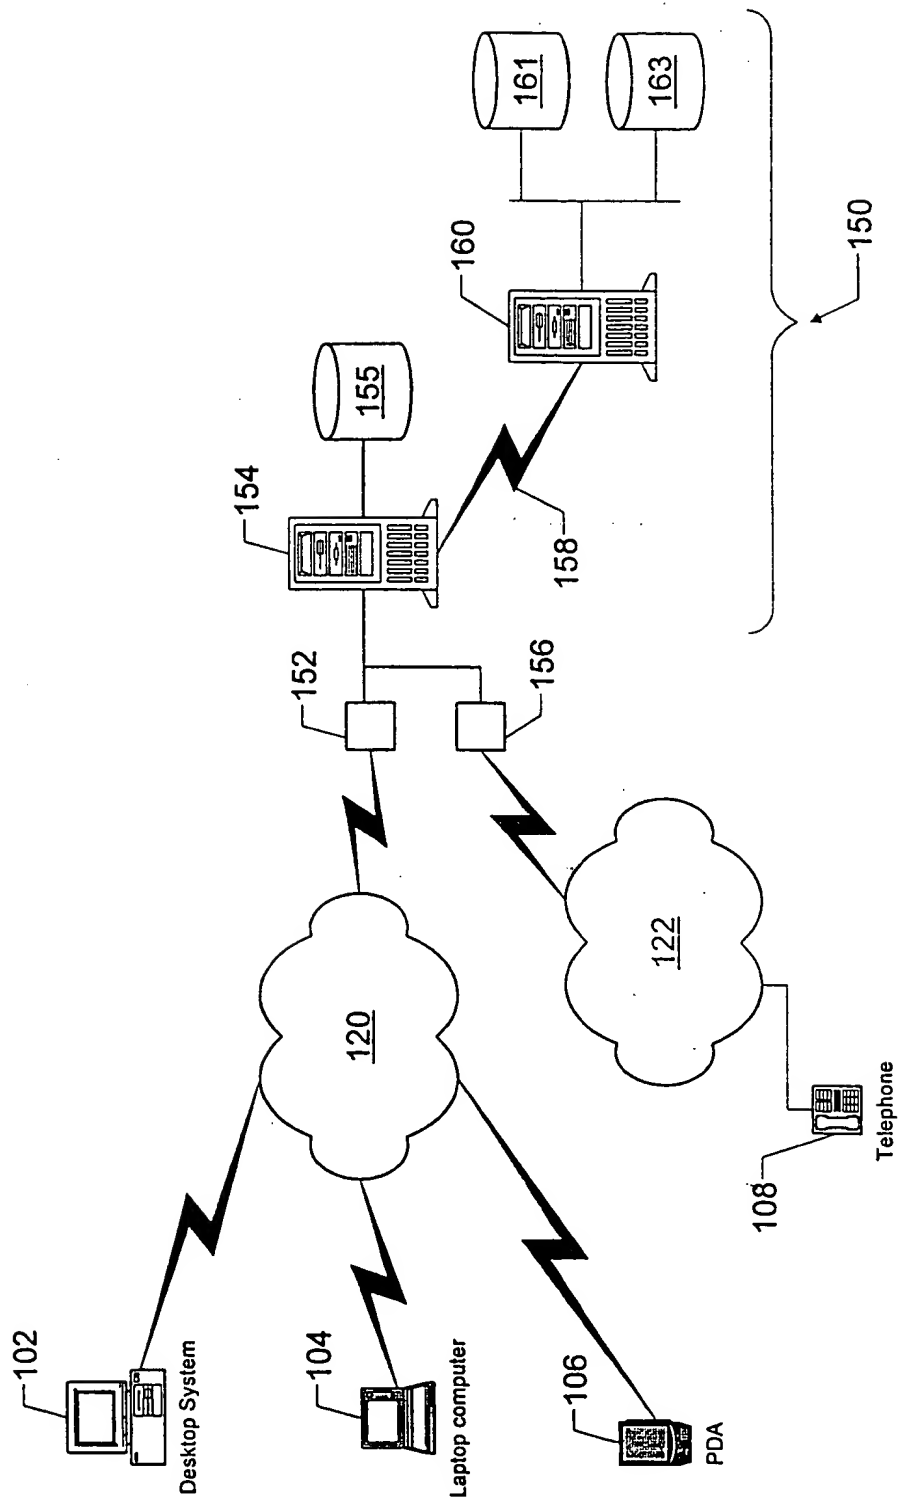

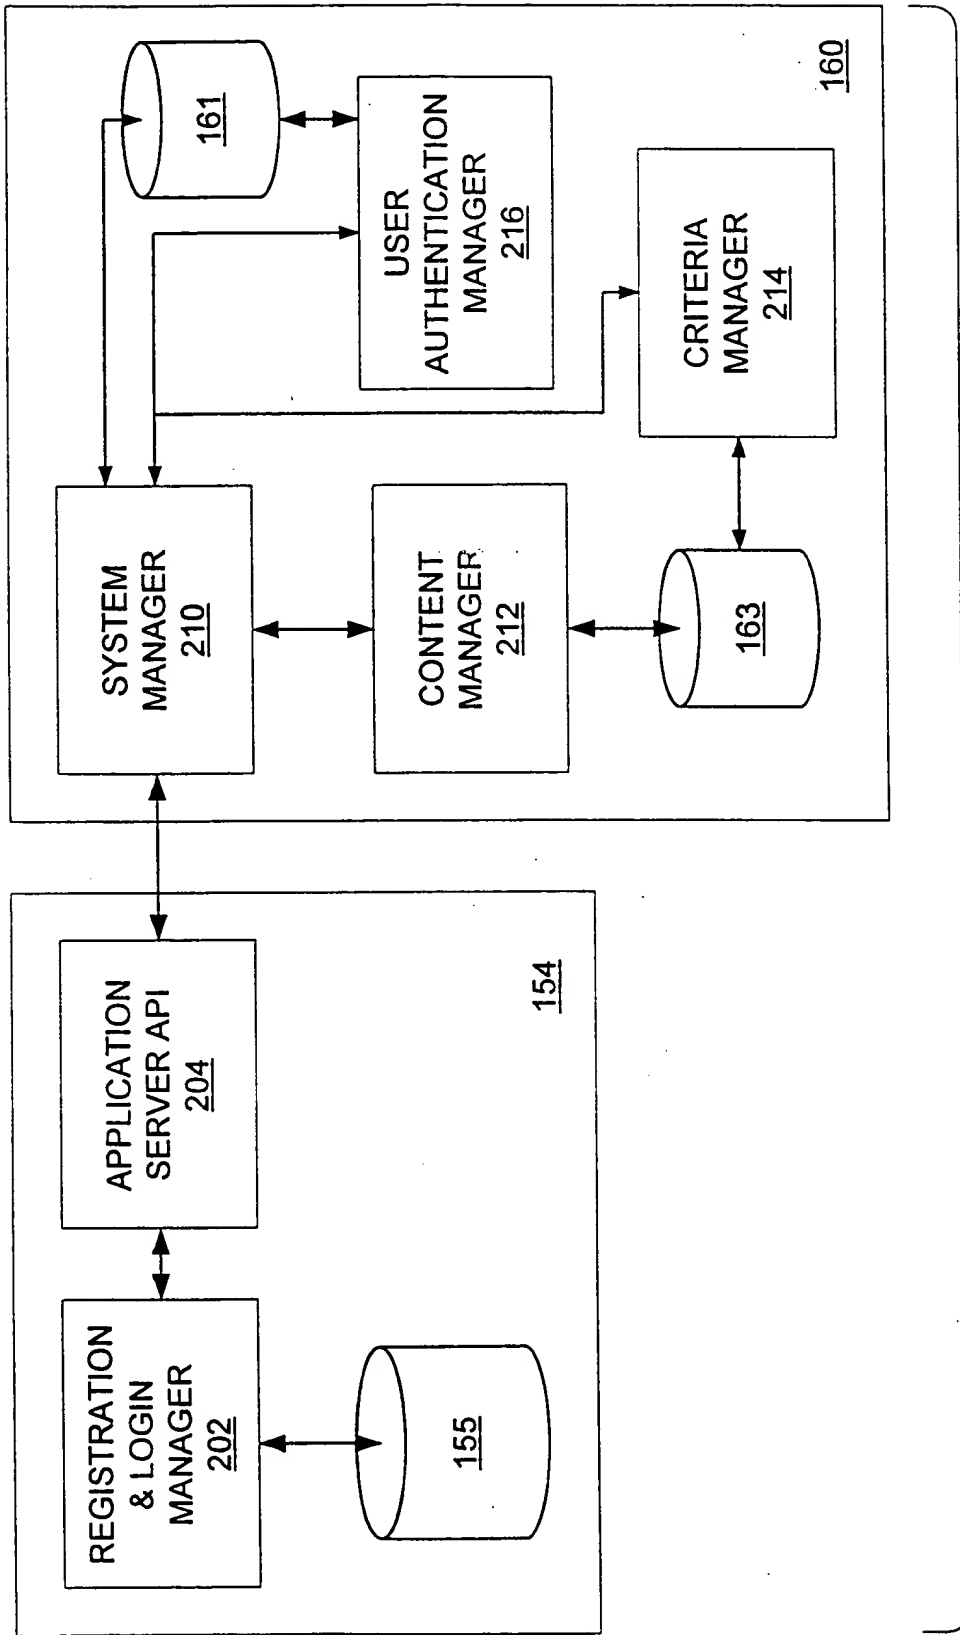

FIG. 1

FIG. 2 is a block diagram of a system 150. The system 150 includes a first module 154 and a second module 160. The first module 154 includes a registration & login manager 202, an application server API 204, and a database 155. The second module 160 includes a system manager 210, a content manager 212, a user authentication manager 216, a criteria manager 214, and a database 163. The registration & login manager 202 is connected to the application server API 204 and the database 155. The application server API 204 is connected to the system manager 210. The system manager 210 is connected to the content manager 212, the user authentication manager 216, and the database 163. The content manager 212 is connected to the database 163. The user authentication manager 216 is connected to the database 161 and the criteria manager 214. The criteria manager 214 is connected to the database 163.
